Taysols enters Partnership Agreement with Leader in Corporate Sustainability Reporting

Sydney, 10 July 2008

Taysols Pty Ltd and Future121 Oy have entered into a long-term partnership agreement in order to enhance corporate responsibility management in Australia and New Zealand; this includes the promotion, distribution, implementation, and ongoing support of 2future's world-class suite of Sustainability Management products.

Taysols is one of the leading performance management consultancies in Australia and New Zealand with an outstanding reputation for working with customers to jointly develop and achieve system facilitated business goals.

"Our customers and their stakeholders have rapidly become aware of the opportunities to improve processes and simultaneously to show economic, environmental and social responsibility. Taysols have an unambiguous record of considering the wider stakeholder base and welcome the opportunity of sharing this philosophy and direction." says Mark Taylor, Director of Taysols.

2future is the leading initiative of integrated Corporate Sustainability Management software products, including sophisticated tools for communicating sustainability performance to different stakeholder groups. 2future also offers its clients consulting for sustainability strategies and processes to assist organizing for both product and corporate responsibility. Clients experience an increase in efficiency of data gathering & reporting, and improve sustainable environmental and social business performance.

"I believe that together with Future121, we can offer excellent services within Corporate Sustainability Management, and that the SDM and CSM products of 2future's suite fit very well into the portfolio of services we offer our customers. Our objective is to continue delivering industry leading services and this partnership is an exciting opportunity to do so." says Mark Taylor, Director of Taysols.

"We are thrilled about having Taysols as our preferred partner." says Veli Kalle Tavakka, CEO Future121 Oy. "Taysols is a leading enterprise performance management (EPM) and business intelligence (BI) consultancy in Australia and New Zealand. This co-operation agreement fits really well with our 2future initiative of Integrated Corporate Sustainability Management." Veli Kalle Tavakka, CEO, Future121 said.
